

METAL PACKAGES INDUSTRIES

Smart Packaging. Superior Protection.

PRODUCT SHEET: Pharmaceutical Tubes (Pharma Grade)

High-purity flexible aluminium collapsible tubes manufactured under clean-room conditions. They feature double-coated internal lacquers (Epoxy Phenolic Resin) that protect sensitive medications, ointments, and ophthalmic preparations from oxidation and chemical reactions with the tube body.

Customization & Finishing Options:

- **Nozzle Versions:** Membrane (sealed nozzle) / Normal Round / Reduced Orifice / Metal Nozzle
- **Cap Styles:** Piercing Cap / Ribbed Screw Cap / Conical Cap / Flower Cap
- **Shoulder Finishes:** Smooth Shoulder / Ridged Shoulder
- **Latex End Lining:** End band latexing available for absolute fold sealing security
- **Standards Compliance:** ISO 9001:2015, GMP Compliant, US FDA drug-grade raw materials

Section 1: Technical Dimensions & Volumes (DIN 55 542)

D1 Tube Diameter (mm)	L1 Body Length Min/Max (mm)	Filling Volume Cylindrical (ml)	Triple Fold Allowance (mm)
9.8	9.8 - 9.8	8.8	0.5
11.0	11.0 - 12.0	10.0	0.5
13.5	13.5 - 17.0	13.5	0.5
16.0	16.0 - 27.0	15.5	0.5
19.0	19.0 - 37.0	17.5	0.5
22.0	22.0 - 47.0	22.0	0.5
25.0	25.0 - 57.0	34.0	0.5
25.0	28.0 - 53.0	43.0	0.5

Section 2: Thread & Opening Specifications

Thread/Opening (D2/D3)	M7/3.5	M9/5.5	M11/7.0	M15/10.0	M20/15.0
9.8 mm to 22.0 mm	X	X	X	-	-
25.0 mm to 30.0 mm	-	X	X	X	-
